NORTHWEST CENTRAL 9-1-1 SYSTEM

MEMORANDUM OF AGREEMENT

1. Upon the date when all participants have approved and signed the revised Northwest Central 9-1-1 System Intergovernmental Agreement, Schaumburg will be considered to be a non-voting member of the system, and will be permitted to participate in all activities and deliberations of the system.

Schaumburg will be granted voting rights when 9-1-1 operations for Schaumburg are officially transferred to the NWC911 System and monthly surcharge collections (wireless) and system operational contributions are remitted directly to the Northwest Central 9-1-1 System.

At that time, Schaumburg will have one seat and one vote on the NWC911 Board of Directors (the ETSB) (which is composed of the Village Managers of the member municipalities).

Simultaneously, when voting rights are granted, Schaumburg will eliminate its own independent Emergency Telephone System Board.

The Northwest Central 9-1-1 System will perform all necessary work associated with the preparation and filing of an amended 9-1-1 system plan with the Illinois Commerce Commission.

2. All 9-1-1 surcharge remittances and system operational contributions will be made payable to the Northwest Central 9-1-1 System and be sent by the ICC in the case of wireless surcharge collections and by Schaumburg in the case of local exchange access lines to the Northwest Central office.
3. Northwest Central will deposit the net amount remitted by Schaumburg based on the current system wide operating surcharge of \$.29 per line per month. This amount will be allocated to the common 9-1-1 system funding pool and will be used for 9-1-1 system budgetary purposes.

If at a later date, the members of the system determine that there is a need to increase the monthly operating surcharge for general system operating expenses or capital improvements Schaumburg will maintain parity in the portion of its contribution, which is allocated to 9-1-1 system operations and/or capital reserve budgets.

4. The Northwest Central 9-1-1 System will pay all expenses related to the provisioning of Enhanced 9-1-1 service for Schaumburg effective with the transfer of 9-1-1 functions to Northwest Central. This includes AT&T and other local exchange carrier service fees, database preparation and maintenance, 9-1-1 premise equipment hardware and software, and adequate backup capability.
5. Schaumburg will pay certain one-time fixed costs for new equipment and/or software or for the modification of certain system components necessary for the integration of Schaumburg into the Northwest Central 9-1-1 System.

Schaumburg agrees to pay such expenses to the Northwest Central 9-1-1 System on an installment basis, with each installment being paid within 30 days after receipt of an invoice from the Northwest Central 9-1-1 System.

The total combined one-time transitional expense for Schaumburg for system modifications is included in the aggregate found in item number 4 of the NWCDS Memorandum of Agreement.

6. Schaumburg agrees to be obligated for its proportionate share of the debts and liabilities outside of normal operating expenses, which may be incurred after its effective date of transfer of 9-1-1 operations to the Northwest Central 9-1-1 System. The proportionate share will be based on Schaumburg's share of the total number of access lines in the 9-1-1 system.

The Schaumburg ETSB may use 9-1-1 surcharge revenue, which it has received prior to the transfer of operations to Northwest Central 9-1-1 System to pay any existing debts and liabilities of its 9-1-1 system.

Any balance remaining in its 9-1-1 system account on the date of transfer of operations must be transferred to the joint Northwest Central 9-1-1 System where such funds will be separately identified and administered by the Northwest Central 9-1-1 System. Those funds may be expended for any lawful 9-1-1 related expenses as Schaumburg directs.
